

When Every Breath Counts

Lost or trapped in an out-of-air emergency?

Escape by snapping on a Last Chance Rescue FilterSM

Only the Last Chance Rescue FilterSM provides the 15 minutes of breathable air you need to escape an SCBA emergency.

- Converts CO to CO₂
- Snaps on most SCBAs in seconds
- Weighs less than 1 pound; compact (3" x 5")
- Tested* against four gases that most threaten firefighters:

GAS	Concentration (ppm)	Allowable Breakthrough (ppm)*	Actual Breakthrough (ppm)
Carbon Monoxide	10,000	200	<30 (24 min)
Hydrogen Cyanide	400	100	<10 (60 min)
Hydrogen Chloride	1,000	5	<5 (170 min)
Acrolein (Propenal)	100	0.5	<0.5 (50 min)

*Study data available on request.

*Allowable breakthrough per EN403 standard.

*Lifesaving backup filter protection from
Essex P.B. & R. Corp., a trusted name
in protective breathing equipment.*
